**LE FINITURE**  
FINISHES

Trattandosi di materie prime naturali, i segni, le imperfezioni, le disomogeneità e le differenze di colore che si possono riscontrare sulla superficie di prodotti finiti non sono da considerarsi difetti, bensì elementi distintivi che ne esaltano la bellezza e la peculiarità.

Tutte le immagini di finiture e i rispettivi colori riportati all'interno del presente listino riproducono il più fedelmente possibile le caratteristiche dei diversi materiali, ma rimangono puramente indicativi per motivi di rappresentazione e di stampa digitale. Anche gli eventuali campioni forniti per la vendita sono indicativi e possono variare in base alle caratteristiche specifiche del prodotto.

Le finiture disponibili si riferiscono esclusivamente a quelle riportate nel nostro catalogo. Qualsiasi richiesta aggiuntiva, se tecnicamente realizzabile, va comunicata e concordata con l'azienda prima della conferma d'ordine.

Per la corretta pulizia delle superfici è consigliato l'utilizzo di un panno morbido, evitando di impiegare l'utilizzo di qualsiasi detergente. Evitare l'esposizione diretta al sole e a fonti di calore.

Tutti le finiture riportano un codice che indica il riferimento interno dell'articolo.

Per evitare errori nell'evasione degli ordini, si raccomanda di attenersi con precisione alla descrizione dei modelli presenti a listino, indicando esattamente articolo, misure, quantità, codice delle finiture ed eventuali richieste aggiuntive. Per tale motivo l'azienda si riserva di comunicare al cliente l'eventuale fattibilità tecnica e stilistica del prodotto scelto, proponendo eventuali soluzioni adottabili in alternativa a quanto richiesto.

Since natural raw materials are used, marks, imperfections, unevenness, and colour differences that might be found on the surfaces of finished products, must not be seen as defects but rather as distinctiveness that enhances their beauty and uniqueness.

All images showing finishes and the related colours shown in this price list reproduce the characteristics of the various materials as faithfully as possible, but are purely indicative due to representation and digital printing reasons. Any samples provided for selling are also indicative and may vary according to the product's specific characteristics. The finishes available are only as indicated in our catalogue. Any additional request must be made and, if technically feasible, agreed with our company, before confirming any order.

For proper surface cleaning we recommend using a soft cloth and avoiding the use of any detergent. Avoid exposure to direct sunlight and heat sources.

All the finishes have a code that indicates the internal reference for the article.

In order to avoid any errors when processing an order, we recommend precise use of the model description shown in the price list, indicating the exact article, sizes, quantities, finish code, and any additional requirements. For this reason, the company reserves the right to notify the client of the technical and stylistic feasibility of the chosen product, proposing any solutions that can be adopted as an alternative to what is requested.

FINITURE METALLICHE | METALLIC FINISHES

La finitura metallica si riferisce alla colorazione e alla sfumatura cromatica che può essere effettuata su una base di ottone o di acciaio inox a seconda delle esigenze prestazionali ed estetiche del prodotto. Le diverse finiture sono ottenute tramite processi come lucidatura, galvanica, verniciatura e spazzolatura.

La fusione a terra delle leghe di ottone e bronzo si realizza creando nelle staffe la "forma negativa" utilizzando le sabbie naturali con metodo antico. Nella forma lasciata libera viene fusa la lega. Il metallo si solidifica e una volta raffreddato lo si libera dalla sabbia, ed è pronto per le varie fasi di rifinitura. Le superfici pulite e lucidate possono presentare delle imperfezioni, dovute alla caratteristica del materiale, che ne valorizzano la lavorazione artigianale.

The term metallic finish refers to the colouring and chromatic hues that can be achieved on a brass or stainless steel base, to suit the performance and aesthetic requirements of the product. The various finishes are obtained by using processes such as polishing, galvanising, painting, and brushing.

The sandcasting of brass and bronze alloys is obtained by creating the "negative form" in the moulds, using an ancient natural sand method. The alloy is moulded in the form that is left free. The metal solidifies and, once cool, it is taken out of the mould and is ready for the finishing phases. The cleaned, polished surfaces can show imperfections, due to the characteristics of the material, which enhance this artisanal production method.

PIETRE SEMIPREZIOSE | SEMI-PRECIOUS STONES

La pietra estratta dai giacimenti si presenta sotto forma di pietra grezza di dimensioni ridotte, tuttavia le realizzazioni possono essere di dimensioni variabili in quanto frutto di una composizione a mosaico. La colorazione e l'iridescenza delle pietre può variare in base alla materia prima. La capacità di ottenere un prodotto finito omogeneo e di colorazione armoniosa è un pregio della lavorazione artigianale.

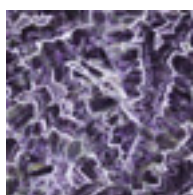

When the stone is extracted from the quarry, it comes in the form of a rough stone of small dimensions, however, items can be made in various sizes, as they are the result of a mosaic composition. The colour and iridescence of the stones varies basing on the raw material. The skill of obtaining a finished product that is even and harmoniously coloured is the beauty of an artisanal production process.

## MARMI | MARBLES

Il marmo è una roccia calcarea con una durezza media, formata da una composizione di cristalli a grana fine che contribuisce a una finitura lucida, mentre l'onice è un materiale calcareo con una grana finissima che risulta essere traslucido. Le venature e la delicatezza delle colorazioni di questi materiali possono variare in base alla materia prima, selezionata tra i migliori blocchi direttamente in cava.

In alcuni casi è possibile diminuire il peso delle lastre accoppiandole a un materiale di supporto tenace e leggero come l'honeycomb, una struttura a nido d'ape di alluminio rivestita in fibra di vetro e resina, oppure diminuirne lo spessore accoppiandole ad altri materiali di supporto come l'alluminio.

Marble is a limestone rock of medium hardness with a fine-grained crystalline composition, which contributes to a shiny finish while Onyx is a limestone rock with a very fine grain that makes it translucent. The veining and the delicate colouring may vary according to the raw material, selected among the best blocks directly in the quarry.

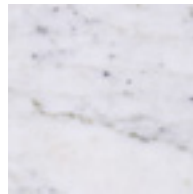

In some cases the weight of slabs can be reduced by coupling them to a strong, light-weight support material like honeycomb - an aluminium honeycomb structure coated in glass fibre and resin - or it can be reduced in thickness by coupling it with other support materials, such as aluminium.

VETRI | GLASS

La collezione comprende una gamma di vetri e specchi essenziali insieme a una selezione di specchi decorati ed antichizzati di diverse colorazioni. Le lastre antichizzate possono presentare leggere ossidazioni, opacità e sfumature di colore diverse che ne enfatizzano l'effetto tipico degli specchi antichi e non costituiscono difetti ma peculiarità.

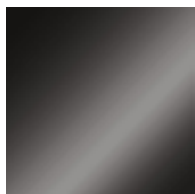

Our collection includes an essential selection of glass and mirrors, as well as a selection of decorated and antiqued mirrors in various colours. Antiqued mirror panels can show slight oxidation, opaqueness, and colour hues that differ, emphasising the typical appearance of antique mirrors, which are not to be considered defects but make the product unique.

## ESSENZE DI LEGNO | WOODS

Il legno è un materiale naturale ed unico. L'essenza di legno ricavata può presentare variazioni di colore e di venatura determinate da vari fattori come caratteristica della pianta o esposizione del prodotto alla luce del sole anche nella stessa varietà di specie. L'eventuale differenza tra i prodotti non è da considerarsi imperfezione, ma caratteristica di qualità della materia prima.

Le impiallacciate in essenza di legno si realizzano utilizzando fogli di legno nobile di spessore variabile ricavati direttamente dai tronchi di migliore qualità. Questi vengono poi incollati su vari supporti e finiti nella tonalità di tinta desiderata.

Il legno massello è ottenuto direttamente dal tronco dell'albero mediante lavorazioni meccaniche. Le particolarità estetiche e di venatura sono caratteristiche dell'essenza legnosa utilizzata. Il legno massello viene tinto nelle tonalità tipiche delle varie essenze con una lavorazione di verniciatura.

La superficie del prodotto finito viene successivamente protetta con finiture lucide brillanti o opache.

Wood is a unique, natural material. The obtained wood may vary in colour and veining, as a result of various factors such as the plant characteristics or exposure of the product to sunlight, even within the same variety of species. Any difference between products is not to be considered as a flaw but as a sign of quality of the raw material.

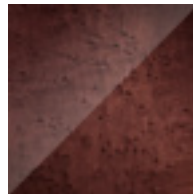

Wood veneering is obtained by using sheets of prime wood of various thickness, obtained directly from logs of the finest quality. These sheets are then bonded to various supports and finished in the required colour tone.

The solid wood is taken directly from the tree trunk using mechanical production methods. The unique aesthetics and veining are characteristic of the type of wood used. The solid wood is coloured in typical colours for the various woods by varnishing.

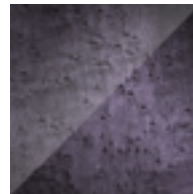

The surface of the finished product is eventually protected by applying glossy or matt finishing.

PERGAMENA | PARCHMENT

Le pelli di pergamena sono accuratamente selezionate ed applicate artigianalmente, ma possono tuttavia presentare variazioni nelle tonalità di colore a causa della loro naturale deformazione e del disomogeneo assorbimento del pigmento anche sulla superficie dello stesso prodotto. Queste caratteristiche indicano la naturalezza del materiale e rendono unica ogni realizzazione.

La superficie del prodotto finito viene successivamente protetta con finiture lucide brillanti o opache.

Parchment sheets are carefully selected and applied artisanally by hand, however, this material may vary in colour tone due to its natural distortion and uneven absorption of the pigment, even on the surface of the same product. These characteristics are a sign of the naturalness of the material, and make each product unique.

The surface of the finished product is eventually protected by applying glossy or matt finishing.

## PELLI | LEATHER

La nostra collezione offre un'ampia gamma di pelli con caratteristiche diverse. La combinazione di questi articoli con le lavorazioni speciali proposte contribuiscono alla realizzazione di un prodotto unico, autentico e di eccellenza.

La vera pelle è un prodotto naturale, pertanto i segni e le imperfezioni che si riscontrano sulla stessa, ad esempio rughe, venature, cicatrici e spinature, oltre a differenze nella tinteggiatura, non sono da considerarsi difetti, bensì elementi distintivi che ne esaltano la bellezza e la contraddistinguono dalla finta pelle e da altri prodotti artificiali.

Per la produzione dei nostri articoli viene effettuata un'accurata selezione dei grezzi, vengono scelte solo le pelli più idonee. Tuttavia può capitare che alcuni segni si evidenzino solo nella fase finale della lavorazione del prodotto.

Un leggero viraggio di colore delle pelli nel tempo è assolutamente naturale. Si consiglia di non esporre i prodotti alla luce diretta del sole.

Our collection offers a wide range of leather with differing characteristics. The combination of these items along with special working processes, contributes to creating a unique, authentic, excellent product.

Genuine leather is a natural product, which means that it might present marks and imperfections, such as wrinkles, veining, scars, and deboning, as well as variations in shades of colour that should not be seen as defect, but as distinctive signs that enhance the beauty and distinguish it from fake leather and other artificial products.

For the creation of our products we carefully select raw leathers, and only the most suitable are chosen. However, it might happen that some marks only show up in the final stage of making the product.

A slight change in colour of the leathers over time is completely natural. We recommend not exposing the products to direct sunlight.

## RAZZA | GALUCHAT

Pelle di razza vera, nota anche con il termine Galuchat, tinta in vari colori. Finitura lucida e tatto rigido e corposo. Le dimensioni delle pelli variano intorno a 7", con la forma a diamante o quasi tonda a seconda della specie. Per ragioni tecniche non è possibile garantire la stessa tonalità di colore su tutte le pelli.

Real stingray leather, also known as Galuchat, dyed in various colours. Shiny finish, and stiff, full-bodied feel. The dimensions of the hides vary at around 7", with a diamond or almost round shape, depending on the species. For technical reasons, it is not possible to guarantee the same colour tone on all hides.

CUOINETTO DA PELLETERIA | LEATHERWEAR LEATHERETTE

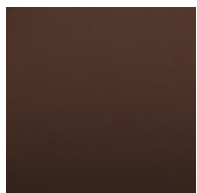

Il cuoietto da pelletteria è un materiale con una mano morbida ricavato da strati di pellame molto sottili, sottoposto prima alla concia e successivamente a finitura coprente. Il cuoio conciato al vegetale proviene dalle migliori concerie toscane. Gli intrecci in cuoietto da pelletteria sono realizzati interamente su telai e sono disponibili nei seguenti colori.

Leatherwear leatherette is a material with a soft coat, made up of very thin layers of hide, first trimmed and then given a covering finish. Vegetable tanned leather comes from the finest Tuscan producers.

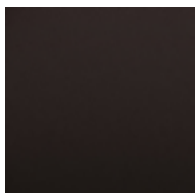

Plaiting of leatherette for leather goods is done entirely on looms, and the product comes in the following colours.

## TESSUTI | FABRICS

La nostra collezione offre un'ampia e ricercata gamma di tessuti uniti e decorati presentati di seguito nelle rispettive varianti di colore e perfettamente coordinabili tra di loro.

Accanto ai colori delicati ed estremamente raffinati e colti, una serie di tonalità più calde e intense che creano un dialogo con le pietre semipreziose, i metalli e le essenze esotiche di legno. La combinazione di questi tessuti con le finiture e le lavorazioni speciali contribuiscono alla realizzazione di prodotti unici, autentici e di eccellenza.

Ogni partita di tessuto può presentare variazioni di tonalità rispetto sia al campionario sia ad elementi prodotti in tempi diversi. Inoltre, un leggero viraggio di colore nel tempo è assolutamente naturale. Si consiglia di non esporre i prodotti alla luce diretta del sole.

Tutte le immagini di tessuti riproducono il più fedelmente possibile le loro caratteristiche, ma rimangono puramente indicativi per motivi di rappresentazione e di stampa digitale.

Our collection offers a wide sought-after range of combined, decorated fabrics, shown in the respective varieties of colour, which can be perfectly coordinated with one another.

Alongside the delicate, extremely refined and cultured colours, there is a range of warmer, more intense tones that recall the semi-precious stones, metals, and exotic woods. Combining these fabrics with the special finishes and working processes, contributes to creating unique, authentic, excellent products.

Each batch of fabric may vary in tone from the samples, as well as from items made at different times. In addition, a slight change in colour over time is completely natural. We recommend not exposing the products to direct sunlight.

All the images that show the fabrics represent their characteristics as faithfully as possible, but are purely indicative for representational and digital printing reasons.

## TIPOLOGIE | TYPES

<b>Velluto di seta · Silk velvet</b>	185

VELLUTO DI COTONE | COTTON VELVET

Velluto di cotone presentato in un'ampia gamma di colori e tre diverse soluzioni di manifattura e spessore. La selezione non solo si contraddistingue per una mano densa e morbida, ma anche per un velour perfettamente uniforme. I tessuti sono sottoposti a un trattamento speciale in fase di finissaggio, tuttavia, per le caratteristiche proprie del velluto, possono presentare gli effetti naturali di ammaccamento.

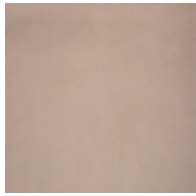

Cotton velvet provided in a wide range of colours, and three different manufacturing and thickness solutions. Our selection stands out not only for its dense, soft feel, but also for the perfectly uniform velour. The fabrics undergo a special treatment in the final finishing phase, however, due to the characteristics of velvet, it might show natural hues.

### **I prezzi indicati nel listino sono espressi in Euro, IVA esclusa.**

Questo listino prezzi non costituisce offerta e può essere variato in qualsiasi momento e con minimo preavviso.

I dati tecnici, le misure e le immagini dei prodotti e delle finiture sono indicativi.

VITO LUPO Srl si riserva la facoltà di variare in qualunque momento dimensioni e tipo di costruzione dei propri prodotti, nonché apportare migliorie e varianti, a suo insindacabile giudizio, nel rispetto delle caratteristiche sostanziali della fornitura.

L'utilizzo di materiali naturali come il legno può comportare differenze di tonalità. Sono pertanto possibili differenze di colore tra lotti di produzione diversi. Le tonalità di colore dei tessuti e delle pelli possono variare da una partita all'altra. L'esposizione dei prodotti alla luce solare altera i colori originali delle finiture, dei tessuti e delle pelli. Il pellame può presentare sulla superficie delle piccole imperfezioni, come cicatrici e rughe, che sono da considerarsi caratteristica naturale del prodotto.

Modifiche delle caratteristiche, dimensioni e finiture dei prodotti dovranno essere approvate preventivamente dalla VITO LUPO Srl e comporteranno una variazione di prezzo.

Gli ordini sono regolati dalle presenti condizioni generali di vendita, previa approvazione da parte della VITO LUPO Srl. I termini di consegna non hanno valore tassativo, ed eventuali ritardi di spedizione non daranno luogo a pretese di danni o interessi da parte del Cliente.

Le condizioni di resa della merce vengono pattuite con il committente. I prezzi indicati nel listino si intendono franco fabbrica, Nova Milanese.

Non saranno accettate contestazioni sulla fornitura trascorsi 8 (otto) giorni dal ricevimento della merce. Eventuali reclami riguardanti la merce dovranno essere inoltrati alla VITO LUPO Srl mediante lettera raccomandata A.R. entro 8 (otto) giorni dal ricevimento della merce. Eventuali reclami di qualsiasi natura, non danno diritto al committente di sospendere i pagamenti pattuiti.

Il committente non può rendere alla VITO LUPO Srl merci regolarmente acquistate se non previa autorizzazione scritta dalla VITO LUPO Srl. Le merci devono essere restituite con imballo adeguato.

In caso di ritardato pagamento verranno applicati gli interessi di mora al tasso commerciale corrente. Questo darà diritto alla VITO LUPO Srl di sospendere ogni altra fornitura in corso. I pagamenti dovranno essere effettuati direttamente alla VITO LUPO Srl.

Per ogni eventuale controversia è competente il foro di Monza-Brianza.

### **The prices indicated in the price-list are in Euro, VAT excluded.**

This price-list doesn't serve as the offer and it can be changed at any moment and with the minimal prior advice.

The technical data, measures and images of the products and finishes are indicative.

VITO LUPO Srl reserves the possibility to vary the sizes and the way of construction of its products at any time, as well as to make the changes and improvements at its own discretion regarding the substantial characteristics of supply.

The use of natural materials like the wood may involve the difference in tonality. That's why the difference of colour between different lots of production is possible. The tonalities of the colour of fabrics and leathers may vary from one consignment to the other. The exposition of the products at the sun lights changes the original colours of the furniture, fabric and leather. The hide can have the small imperfections on its surface, like scars and wrinkles that are to consider as natural characteristics of the product.

The modifications of the characteristics, dimensions and finishes of the products should be previously approved by VITO LUPO Srl and they will involve the change of the price.

The orders are regulated by the present general conditions of sale after the approval by VITO LUPO Srl. The delivery terms are indicative and eventual delays of shipment don't give the place to the claim of damage or interest from the Client's party.

The delivery conditions of the goods are agreed with the customer. The prices indicated in the price list are ex works, Nova Milanese.

Rejections of supply will not be accepted after 8 (eight) days on receiving the goods. Eventual claims concerning the goods shall be sent to VITO LUPO Srl by means of registered letter before 8 (eight) days from the receipt of the goods. Eventual claims of any nature will not permit to the customers to suspend the agreed payments.

The customer cannot return the goods regularly purchased to VITO LUPO Srl without prior written authorization by VITO LUPO Srl. The goods shall be sent back with the appropriate package.

In case of delayed payment the percent interests of current commercial rate will be applied. This will permit to VITO LUPO Srl to suspend every other supply in process. The payments shall be arranged directly to VITO LUPO Srl.

The Court of Monza-Brianza is competent for any eventual controversy.
