

Rephase
ALTA COSMESI

"Being beautiful is the noblest
weakness of our soul"

Rephase was born in 2003 from the desire of Viviana Giovannini, founder and President of the brand, to inspire a new beauty, more conscious and authentic, that nourishes and feeds the energy of the heart and mind and is an expression of our soul.

Viviana Giovannini
Founder

Beauty Atelier

REPHASE, brand of Vivipharma S.p.A. group, is a cosmetic line that combines intuition and passion, avant-garde science and advanced biotechnological research, aiming at preserving the well-being and youthfulness of the skin.

The collection of REPHASE ALTA COSMESI skin care products is completed by a line of refined and original fragrances: REPHASE PARFUMS.

Time is a precious ally

The mission of Rephase is to preserve the youthful capital of the skin over time. To do this, beauty rituals are created, as special and precious moments to be experienced to regenerate and amaze yourself, reconnecting to your individuality and giving a charge of vital energy through self-care and care of your skin.

The brand is based on the philosophy of knowing how to give time to yourself, to love yourself, to enjoy moments of well-being and pleasure, which is expressed through the high sensorial quality of cosmetics with modern, melting and refined textures.

Alta cosmesi

The call of beauty

The cosmetic line for skin care, REPHASE Alta Cosmesi, holds the secrets to bring about a new beauty, pure expression of well-being and happiness of the human soul. A careful selection of precious raw materials, such as **24K Gold, Platinum, Silver, Diamond, Emerald and Topaz**, together with precious ingredients of natural origin (**up to 99.6%**), bio-phytoextracts of rare plants and functional active ingredients of high biotechnology, are all essential components to achieve the most innovative and expert formulations. This is how different families of products are born, highly performing, of great quality and technicality, which act to counteract the signs of skin aging.

The beating heart

Rephase cosmetics, characterized by high reliability and technical functionality, are designed and manufactured in Vivipharma laboratories, which for over 40 years, have been developing products of excellence for the care and beauty of skin and hair, with cutting-edge production standards and strict controls in full compliance with safety and efficacy processes.

Continuous research, tradition and innovation, combined with the experience of the company's chemists, biologists, cosmetologists and researchers, allow the development of new ideas and increasingly exclusive formulations and the filing of international patents, true intellectual assets that the company protects and preserves over time.

The study of each Rephase Alta Cosmesi treatment is carried out in compliance with the highest quality standards, carefully tested clinically and dermatologically certified by the most prestigious Italian Universities. The production of limited quantities and the selective distribution to Partners who share the values of excellence and quality contribute to the uniqueness of the brand.

ANTI-SPOT

Innovative anti-spot cosmetic treatments that enhance natural beauty.

They act directly on dark spots, reducing them significantly, and regenerate the skin to restore uniformity and radiance. The Re-White line, consisting of Active Concentrate Anti-Dark Spot and Protective Depigmenting Cream with SPF 15, carries out a regenerating action on skins with dyschromia, giving them uniformity and brightness. The products of the Rephase Re-White line have been subjected to clinical efficacy and safety tests carried out at the University of Sassari. After 8 weeks of treatment, it was found that the active anti-spot concentrate and the depigmenting cream effectively reduce hyperpigmentation.

1.0 OZ.

RE-WHITE C ACTIVE CONCENTRATE ANTI-SPOT

Concentrated anti-spot serum, makes the complexion homogeneous and increases the brightness of the skin.

At the heart of the formula, innovative and effective active ingredients, such as Oligopeptide-68 and Tetrapeptide-27, act in synergy to visibly reduce brown spots. Vigna Aconitifolia extract promotes cell renewal, while Hyaluronic Acid keeps the skin hydrated and uniform.

Directions: apply a few drops of concentrated serum to spots, morning and evening, after cleansing and toning the skin.

Actives: Oligopeptide-68, Hydrogenated lecithin, Tetrapeptide-27, Vigna aconitifolia extract, Hyaluronic acid.

Results

- Visibly reduces skin blemishes

GOLD 24K

OROPURO 24K unique and precious sun treatments formulated to give yourself a golden, intense, protected and long-lasting tan. OROPURO sunscreens represent the fusion of skin care and highly effective protection.

The 24k gold enhances the beauty of the body and makes it shine of light reflected from the sun.

OROPURO 24K GOLD SUN TREATMENT AGELESS FACE AND BODY PROTECTIVE OIL

Innovative formulation ideal for a golden tan, intense, protected in a very short time. A valuable anti-aging complex together with rare and extraordinary exotic oils, stimulates tanning by restoring hydration, brightness, softness and silkiness to the skin. Colloidal gold, inserted in a complex of soy phospholipids and liposomes, is constantly released protecting collagen and preserving the youthfulness of the skin.

Thanks to OROPURO PROTECTIVE OIL the skin is more beautiful, the tan is bright and lasts long. Small signs of dehydration are smoothed.

In the evening OROPURO PROTECTIVE OIL thanks to the presence of gold particles, becomes the best ally for a shiny and velvety body.

Directions

shake before use. Apply to entire body before each sun exposure and repeat application after each bath or shower. If you do not want the glitter effect on the skin, do not shake before use.

Suitable for already tanned skin.

Results

- Intense tanning action
- Antioxidant and protective action
- Moisturizing action
- Nourishing-elasticising action
- Luminous skin
