Dimensions (cm): 78 x 48

Rotating showcase

Limited Edition of 60 pieces, crystal-effect plexiglass

Entirely handmade in Italy

Dimensions (cm): 47 x 40 x 14

D'ORO Collection has actively taken part in the Lamborghini 60th anniversary by creating a special book made in carbon fiber and platinum.

DNA Lamborghini Platinum Edition is a one-of-a-kind object: designed with meticulous attention to detail and exquisite design, the book is the centerpiece of a set that includes several exclusive items.

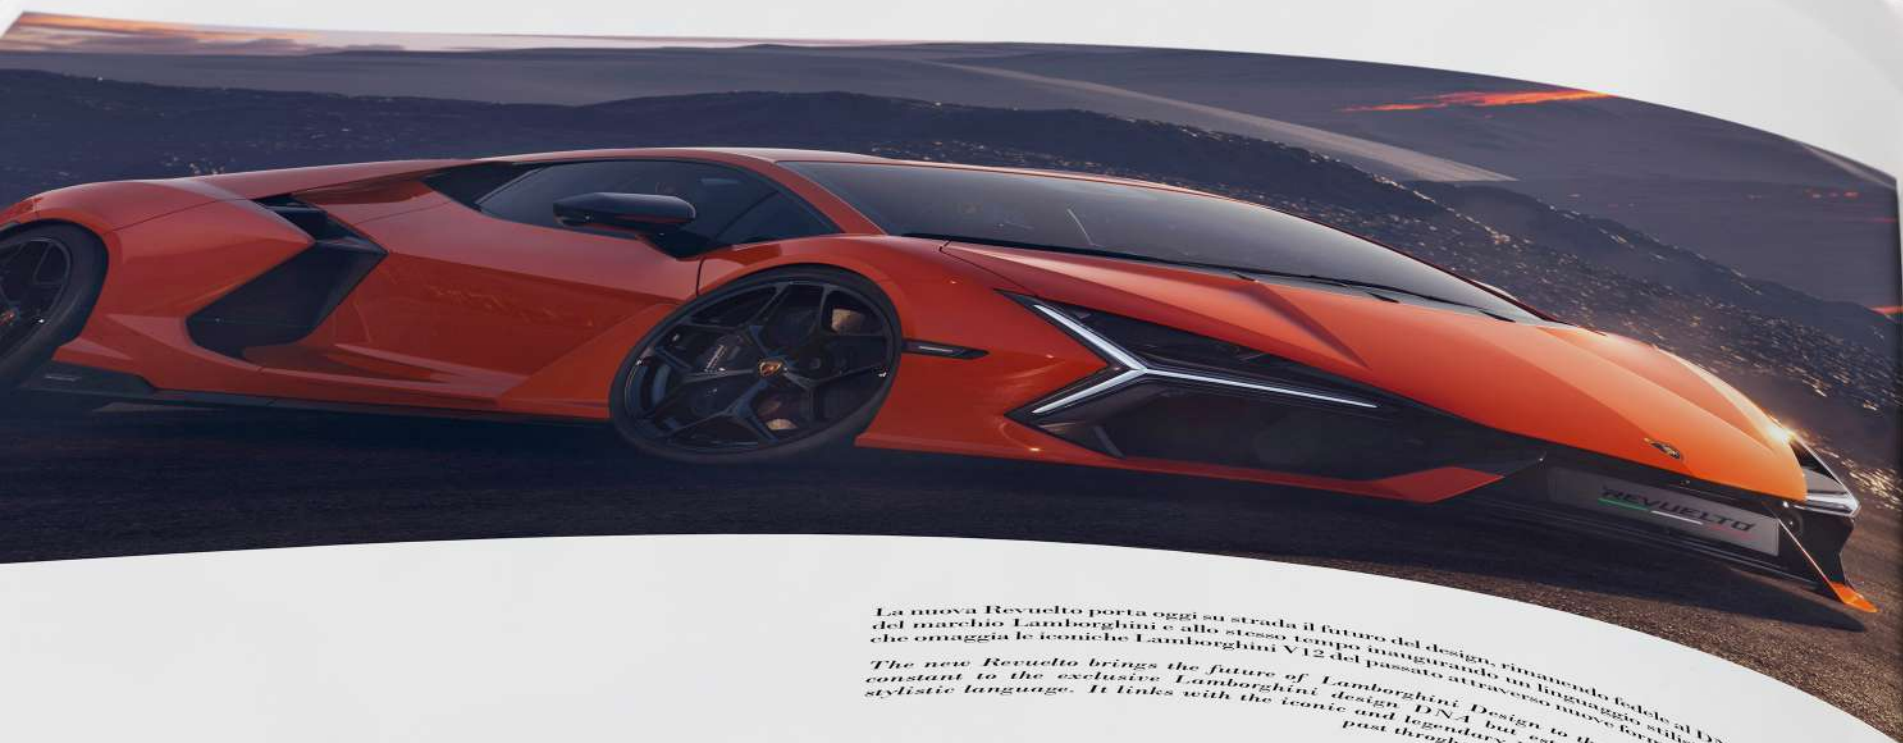

The carbon fiber covers are forged in an autoclave and feature four bronze sculptures inspired by Lamborghini super sports cars, gilded in platinum. Platinum is one of the rarest and most precious metals in the world, and its luster is the perfect choice to make DNA Lamborghini even more special and unique.

In addition, the carbon fiber is hand-painted, thus creating an elegant effect of black shades that alternate with the iconic Lamborghini motif.

The set includes a hexagonal Book Jewel, an aluminum bookmark with a modern design that adds an extra touch of beauty and elegance when the book is open. A black leather pad with classic hexagonal quilting is designed to protect the book while the pages are being turned. And finally, there is the limited-edition revolving display case with a black base, Automobili Lamborghini shield, and the 60th Anniversary logo. All of this is enclosed in a logo stamped wooden box designed to provide safe storage and transportation, just like a work of art.

REVUELTO

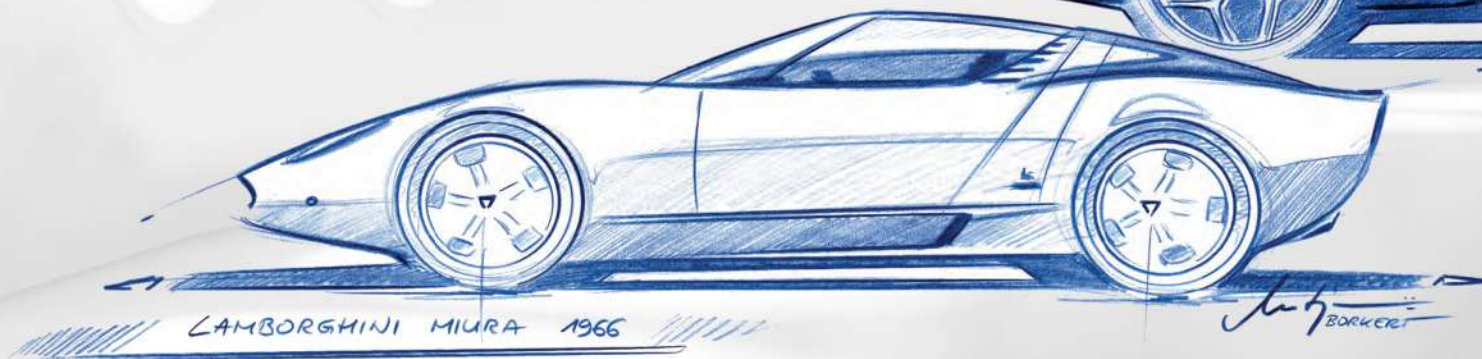

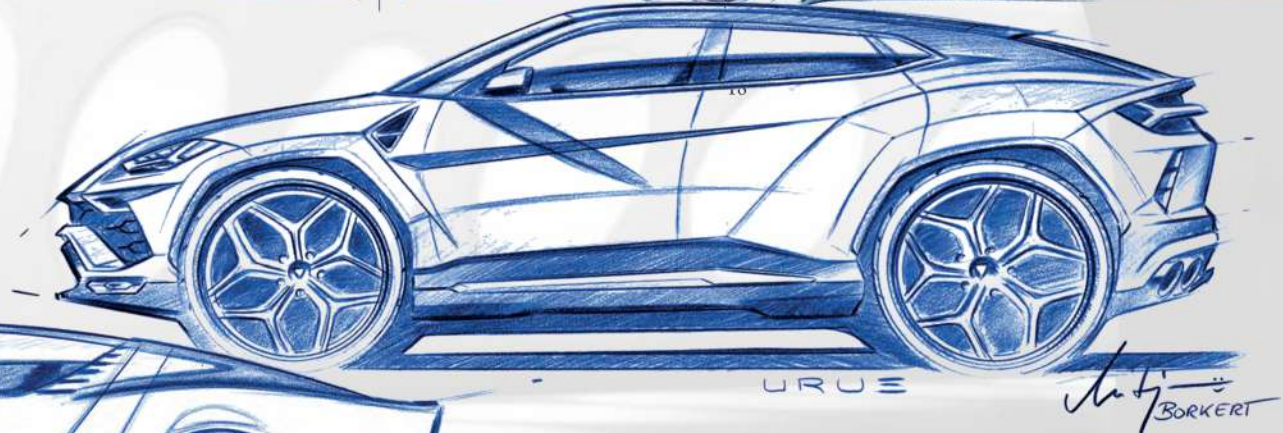

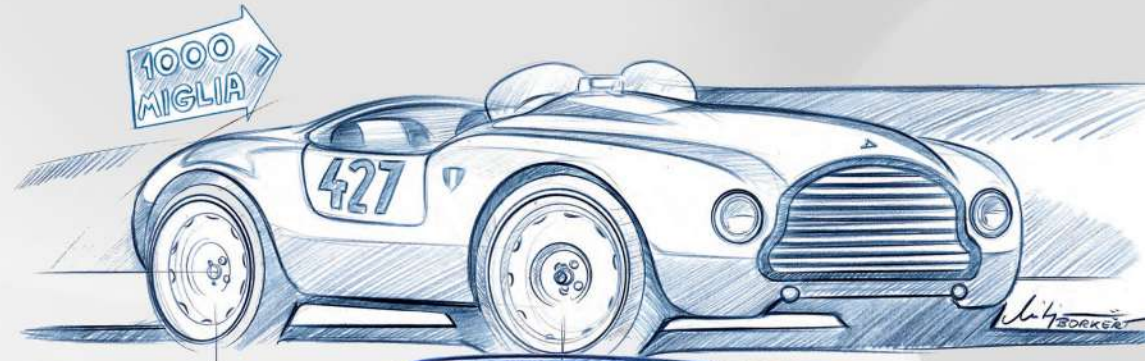

La nuova Revuelto porta oggi su strada il futuro del design, rimanendo fedele al DNA unico del marchio Lamborghini e allo stesso tempo inaugurando un linguaggio stilistico inedito che omaggia le iconiche Lamborghini V12 del passato attraverso nuove forme e proporzioni.

The new Revuelto brings the future of Lamborghini design DNA to the road today. It stays constant to the exclusive Lamborghini design DNA but establishes an entirely new stylistic language. It links with the iconic and legendary Lamborghini V12 cars of the past throughout the new shapes and proportions.

The over 380 photographs, the text written by Antonio Ghini, and the sketches by Mitja Borkert take readers on a journey through the history of Lamborghini, from its founding to the present day, exploring its DNA characterized by a passion for high performance super sports cars, precision engineering and cutting-edge design.
