

***Bioformula:
Sterile Solutions***

Aesthetic Medicine made in Italy

Bioformula's line of cosmetic products in sterile vials is formulated to enhance the appearance of the face, body and hair.

It is made in Italy by our ISO 22716:2007 and EFfCI GMP certified manufacturing partner since 2013 with certificate no. 18549 and no. 18950.

Bioformula ***Face Line***

Amino-Jal: Gentle Reshaping

Amino Acids & Hyaluronic Acid 1%.

Hyaluronic acid improves skin hydration and stimulates collagen production while amino acids revitalize and tone. A gentle, plumping anti-aging effect. For dull, dry and loose skin, and to improve the appearance of fine lines.

Suggested combinations: Meso-Lift, DMAE Complex, Antiradical Complex, Aminotonic

Packaging: 12 x 5ml Sterile Vials
Code: 6271

Amino-Jal Strong: Intense Reshaping

Amino Acids & Hyaluronic Acid 1,3%.

Hyaluronic acid improves skin hydration and stimulates collagen production while amino acids revitalize and tone. A plumping, intense anti-aging effect. For mature and fatigued skin, and to improve the appearance of medium wrinkles.

Suggested combinations: Meso-Lift, DMAE Complex, Antiradical Complex, Aminotonic

Packaging: 12 x 5ml Sterile Vials
Code: 7569

Aminotonic: Intense Toning

Amino Acids.

Amino acids support the skin in preserving a firm appearance, thus helping to minimize signs of skin aging. For asphyxiated and loose skin.

Suggested combinations: Amino-Jal, Amino-Jal Strong, Antiradical Complex

Packaging: 12 x 5ml Sterile Vials
Code: 6269

Meso-Lift: Strong Revitalization

Amino Acids, B Vitamins & Trace Elements.

A triple revitalization for a fresher and brighter-looking skin. For dull and mature skin.

Suggested combinations: Amino-Jal, Amino-Jal Strong, DMAE Complex

Packaging: 12 x 5ml Sterile Vials
Code: 7594

DMAE Complex: Firming Effect

Dimethyl MEA.

Dimethyl MEA helps improve skin tone, reducing the appearance of skin sagging and fine lines. For asphyxiated and loose skin.

Suggested combinations: Amino-Jal, Amino-Jal Strong, Antiradical Complex, Liporace Cosmetic, Meso-Lift

Packaging: 12 x 5ml Sterile Vials
Code: 7658

Antiradical Complex: Anti Free Radicals

Amino Acids & Enzymes.

The revitalizing amino acids and antioxidant enzymes HRP and SOD counteract the damage caused by free radicals on the skin, promoting its healthier appearance. For dull and rough skin.

Suggested combinations: Amino-Jal, Amino-Jal Strong, Aminotonic, DMAE Complex

Packaging: 12 x 5ml Sterile Vials
Code: 6280

Zimojal: Correcting Effect

Hyaluronidase.

For excess hyaluronic acid and to complement treatments aimed at enhancing the appearance of scars and imperfections in fibrous tissue.

Suggested combinations: Zimolip, Lipotene, Liporace Cosmetic

Packaging: 12 x 5ml Sterile Vials
Code: 6267

Bioformula *Body Line*

Lipolise Cosmetic: For Fat Deposit

Phosphatidylcholine & Sodium Deoxycholate.

To counteract imperfections associated with fibrotic cellulite and localized fat deposits in the arms, chin, knees, and localized fat in general.

Suggested combinations: Liporace Cosmetic.

Packaging: 12 x 5ml Sterile Vials
Code: 6878

Lipotene: For Extended Fat Deposit

Phosphatidylcholine, Sodium Deoxycholate
& L-Carnitine.

To counteract imperfections caused by fat deposits in extended areas and promote tissue toning. For areas prone to fat deposits like inner thighs, chin, saddlebags, knees, and hips.

Suggested combinations: Zimoslim, Zimojal, Zimolip, Liporace Cosmetic

Packaging: 12 x 10 ml Sterile Vials
Code: 6283

Zimolip: Reducing Effect

Lipase.

Lipase helps treat imperfections caused by localized fat deposits, improving the appearance and tone of the skin. For thighs, saddlebags, buttocks, and hips.

Suggested combinations: Lipotene, Liporace Cosmetic, Zimojal

Packaging: 12 x 5ml Sterile Vials
Code: 6268

Zimoslim: Reducing & Corrective Effect

Lipase & Hyaluronidase.

Hyaluronidase and lipase to assist in addressing imperfections associated with fibrotic cellulite and fat deposits. For thighs, chin, knees, saddlebags, buttocks, and hips.

Suggested combinations: Lipotene, Liporace Cosmetic

Packaging: 12 x 5ml Sterile Vials
Code: 6955

Liporace Cosmetic: Draining Effect

Caffeine.

Caffeine promotes fluid drainage and stimulates microcirculation, helping counteract cellulite imperfections. For localized fat, thighs, saddlebags, buttocks, and hips.

Suggested combinations: Lipotene, Zimoslim, Zimolip, Zimojal

Packaging: 12 x 5ml Sterile Vials
Code: 6879

Bioformula Hair Line

MezoHair: Hair Shaft Growth Stimulation

Essential & Sulfur Amino Acids, Vitamins & Folic Acid.

Amino acids and vitamins help improve the condition of the hair shaft. Folic acid contributes to the stimulation of hair follicle development and the production of new hair strands, promotes hair thickness and prevents hair thinning. To assist in addressing imperfections associated with androgenetic alopecia and alopecia areata, thinning and telogen effluvium.

Suggested combinations: BiotinHair

Packaging: 12 x 5ml Sterile Vials
Code: 7595

BiotinHair: Promoting Hair Growth

Vitamins, Essential & Sulfur Amino Acids, Biotin, Hyaluronic Acid.

Biotin is involved in the production of keratin, a protein that makes up the structure of hair. Adequate biotin levels can support the growth of hair follicles, leading to longer and healthier hair, while hyaluronic acid has a highly moisturizing action. Amino acids help improve hair health. To help counteract imperfections associated with androgenetic alopecia and alopecia areata, cicatricial alopecia (lichen), hyper seborrhea and seborrheic dermatitis.

Suggested combinations: MezoHair

Packaging: 12 x 5ml Sterile Vials
Code: 6282
